

# Holland Community Energy Plan Invitation to the Home Energy Retrofit Program

*“Holland will be a world class energy efficient city which generates energy cleanly, uses it efficiently, and distributes it reliably and affordably.”*

The Home Energy Retrofit Program (HER) is one component of a larger vision and is one of seven key strategies endorsed by the City Council. The program’s Mission is to create the means whereby every residential home in our city benefits from a professional energy saving analysis and renovation.

## You’re Invited!

Are your energy bills too high? Does your home have uncomfortable rooms? Are you concerned about indoor air quality? Would you like to increase your home’s value? The HER Team invites you – Homeowners, Renters, and Landlords – to participate in the citywide Home Energy Retrofit Program. Here are the steps.

**#1. Tell us you’re interested. You will be kept informed as plans develop.**

Use the form below to register. You will receive priority consideration when the HER Pilot Project begins in 2013.

**#2. Energy Use Analysis**

If selected, your home will receive a professional energy analysis and renovation plan designed to improve energy efficiency by up to 50%.

**#3. Home Retrofit Measures... and a Financial Plan**

The scope of work may include such modifications as:

Heating/Cooling systems	Major Appliances	Roof replacement
Building envelope changes	Insulation	Window replacement
Weather stripping	Hot water heaters	Light bulb replacement

The HER Team will work with you in designing a creative and affordable financial plan.
